## Clover Cookies

Sprinkle a little luck on your Sugar Cookies.

Begin by creating a clover stencil:

Draw your own or use our template, and cut out the shapes.

Next, sift together 1/3 cup confectioners' sugar and 1 teaspoon green powdered food coloring.

Position stencil over unbaked sugar-cookie dough as shown below, and sprinkle green powder over stencil, using a small sieve.

Remove stencil, chill dough for 15 minutes, and bake.
