QUICK CHEESECAKES

Ingredients:

24 vanilla wafers
3 oz cream cheese
4 eggs
2 cups sugar
1 teaspoon vanilla
1 can pie filling

Directions:

Place cupcake liner in 24 sections of your muffin tins. Drop a vanilla wafer into the bottom of each one. Cream together cream cheese, eggs, sugar and vanilla. Pour over vanilla wafers. Bake for about 20 minutes at 350 °. Allow to cool. Top with desired canned pie filling and refrigerate.

Make ahead and freeze, but omit the fruit topping until the cheesecakes are thawed and ready to serve.
